To: Calhoon Tim <tcalhoon@ccctechcenter.org>, Patricia Donohue <pdonohue@ccctechcenter.org>

Tim and Patty,

Are we adding "non-binary" as a gender option to CCCApply?

Thanks.

Dr. Omid Pourzanjani

Hi Omid,

See below...

CCCApply is used to populate the MIS SB04 data field which is used for IPEDS reporting to the US Dept. of Education.

This may require a negotiation between CCCCO and the DOE on what non-binary means in reporting.

Best

Tim

Student Basic Data Elements

DED#	DATA ELEMENT NAME	FORMAT
SB04	STUDENT-GENDER	X
This element indicates whether the student is female or male.		

Coding	Meaning
F	Female
M	Male
X	Unknown / non-respondent

SB04 STUDENT-GENDER

Processing Edits	
FIELD CHECK	M, F, or X

Hi Tim.

This item came up again and it looks like I dropped the ball on this one by not following up with your question back to me. Could you please review the documents attached and let me know if they provide the info that we need?

Thanks much.

Omid.

Hi Omid,

I read through the docs and SB176. Adding non-binary to CCCApply is not a problem, however the CCCApply Gender field is directly reported to CCCCO MIS SB04 field by the colleges.

The CCCCO MIS SB04 field element would need to be changed to accept Non-binary.

In order for the colleges to receive federal funding for student aid programs, CCCCO reports gender to the federal government through IPEDS reporting. IPEDS does not have an option for non-binary.

Before CCCApply is changed to accept non-binary, it seems that CCCCO needs to:

- Determine a method to report non-binary gender to IPEDS by contacting the Federal Department of Education
- Change the CCCCO MIS SB04 data element to accept a non-binary value

If these steps are not taken before CCCApply is changed, all non-binary students would have to be reported as Unknown. At a minimum I would recommend that the CCCCO MIS SB04 field element be changed so this does not happen.

Best,
Tim

Hi Tim.

Thank you for the assessment.

Todd, please see thread below and let me know if/when SB04 can be changed to accommodate this legislation.

Todd/Tim: how much delay of time can we afford between the time we change CCCApply and COMIS?

Thanks much.
Omid.

I think ideally COMIS should be changed first to have the colleges prepared to handle a new value and avoid sending values COMIS will not accept.

It would be possible to update SX04 (and EB03 EMPLOYEE-GENDER) to add an additional code for non-binary gender for 2019-20 reporting.

The IPEDS Technical Review Panel met and discussed gender reporting in 2016, but no changes came out of that discussion. The discussion summary can be found here https://edsurveys.rti.org/IPEDS_TRP_DOCS/prod/documents/TRP51_Summary.pdf

There is currently no IPEDS guidance for reporting non-binary gender. The IPEDS guidance for reporting unknown gender is...

"It is up to the institution to decide how best to handle reporting individuals whose gender is unknown. However, common methods used are: allocate the individuals with gender unknown based on the known distribution of men and women at the institution for either students or staff; use the individual's name to assign gender; assign gender randomly."

We currently do not report records for students with unknown gender. We would have to determine how to handle students with non-binary gender for IPEDS reporting.

Sincerely,

Todd Hoig

Let's please add the field/code on both systems (COMIS and CCCApply).

Do we need a field guidance on this work? If so, Barney, would you be willing to coordinate that?

Thanks.

Omid.

Change request time :)

I think if we have this in place by June/July that will work. I suspect Todd cant get this for COMIS until July/August when they do maintenance.

Sounds good. I will write up the change request doc and get it ready for more details.

P.S. Just had my weekly stand-up with Jennifer and I updated her on this (forwarded her the thread).

Let me know if you need anything from me for tomorrow's meeting.

Thanks,
Patty
