# About Course Exchange

---

## What is Course Exchange?

Course Exchange, facilitated by the California Community College Chancellor Online Education Initiative (OEI), provides a seamless pathway for California community college students to register for online classes within the system. Course Exchange uses a streamlined online registration process developed between colleges that are members of the OEI Exchange Consortium.

All courses in Course Exchange are provided by an accredited California Community College. Through Course Exchange, students who have difficulty accessing courses at their Home College now have the opportunity to enroll in additional courses offered by another Teaching College (a consortium member college). These courses have equivalent articulation to those at the Home College.

## How does Course Exchange work?

Course Exchange is a web application that handles enrollments for Online Education Initiative (OEI) courses. Colleges submit their online courses using Course Exchange. CCC students from participating OEI consortium colleges can enroll in these online courses using Course Exchange. While seats in each course are allocated by the system, colleges can reserve seats as needed. Students fees for the course(s) are paid to the Teaching College and credit for the course is stored with the student's Home College.

The focus of this guide is on the CCC Administrator and the tasks to submit online courses using Course Exchange.

## The Student Course Exchange Experience

1. After registering for one or more courses at their Home College, if a student finds that they are unable register and get into a specific course section at their Home College (because it's full or is not offered at a time the student is able to take the class) they can explore Course Exchange.
2. The student clicks a link from within their college's course registration system to get to the Course Exchange web application.
3. The student logs into Course Exchange and their eligibility is determined. If a student is eligible, a message displays informing them of Course Exchange policy and they are allowed to continue upon agreement.
4. The student searches for the course(s) they need. Search results display a list of upcoming course sections along with their earliest registration dates.
  -  **Note:** The online course may be taught by either the student's Home College or faculty from another college (Teaching College).
5. The student selects an open course section and their enrolment is confirmed. From here the student can view the status of their course enrolment.
  -  **Note:** The course/section registration for the student is stored in the Teaching College's SIS for the student.
6. The student is directed to the Teaching College to pay fees. Upon fee payment, the student's registration is complete and the course appears in the student's Canvas account.
7. The student takes the online course, completes it, and credit for the course is stored at the Home College's SIS.
8. The student will need to request a transcript from the Teaching College, following their Home College's transcript request procedures, and have it evaluated for credit to be awarded at the Home College.

# Logging In As An Administrator to Course Exchange

---

The remaining sections of this guide provide information on how to submit your college's courses to Course Exchange and are intended CCC Administrators.

1. In your web browser, navigate to: <https://course-exchange-admin-pilot.ccctechcenter.org>
2. Enter your Course Exchange administrator user name and password.
3. Click **Sign In** to open the home page in Course Exchange Home.

 **Note:** If you have trouble with your login, click the *Need help?* link beneath the **Sign In** button and follow the links to get password or user ID help or contact information for other login issues.

Different login credentials may be assigned to different roles. A given login may not display the same views as shown in this guide. For example, login credentials may be assigned to one or more of the following roles:

- District Admin: this role can administer all the colleges in their district
- School Admin: this role can administer only their college

 **Note:** The School Admin role provides access to the *Reports* tab.

## Getting Started Using Course Exchange

On the home page, your school's name automatically displays in the *School* drop-down list. If you are part of a multi-school district you may need to click the *School* drop-down list to select your school before you can access the administration screens.

Once you select your school, you have access to the following tabs: *School Profile*, *Terms*, *Courses*, *Enrollments*, and *Reports*.

2. Edit the different fields as needed. Use the table below for some of the less-obvious field values you may need to enter.

**Note:** All messaging is specific to the teaching school with the exception of the Financial Aid Message, which is always specific to the student's home college only.

Field	Value
SIS Type	Select your student information system (SIS) type from the drop-down list (supported SIS types include Banner, Colleague, PeopleSoft, and WorkDay).
Impact Dropping Messages	Edit the template to customize the message that displays to students about potential impact of dropping classes on their financial aid eligibility.

Field	Value
Impact Withdrawal Messages	Edit the template to customize the message that displays to students about potential impact of withdrawing from classes on their financial aid eligibility.
Ineligibility Message	Edit the template to customize the message that displays to students about whether or not they are eligible to register for a Course Exchange course. Students are not eligible for a Course Exchange course if they have a status of one of the following at their home college: <ul style="list-style-type: none"> <li>• International F1 Visa</li> <li>• Students with an address outside of California</li> <li>• Incarcerated</li> <li>• Vacation or Visitor Visas (B Visas)</li> <li>• AB540 with out of state addresses</li> <li>• High school dual enrollment</li> </ul>
Canvas Access Message	Edit the template to customize the message that displays to students about how to access course materials in Canvas and communicate with the instructor,
Readiness Message	Edit the template to customize the message that displays to students about the online readiness modules for OEI courses at the time of registration so that students can begin working on the modules prior to the start of class.  Your customized message might include a link to another web page or to Canvas; wherever your readiness module resides. The link may take the student to a self-enroll link for the readiness module and communicate information to the student about taking them and why they are being asked to do so.
Fee Opt Out Message	Edit the template to customize the message that displays to students about your college's process to opt out of fees they have already paid at their home college.
Non-Resident Message	Edit the template to customize the message that displays to students who are non-residents.
End of Year Transcript Message	Edit the template to customize the message that displays to students about their end-of-year transcript.
Financial Aid Message	Edit the template to customize the message that displays to students about financial aid at their home college.
DSPS Message	Edit the template to customize the message that displays to students about Disabled Student Programs and Services.

3. When your school profile information is correct and ready to display publicly in Course Exchange, click the **Active** button to activate it.

## Edit School Profile

Active

School name

Folsom Lake College

**Note:** Colleges participating in Course Exchange are set to Active. Those not participating are set to Inactive. If a district has colleges participating in Course Exchange and others that are not, the district admin has the ability to set schools to Inactive.

4. Click **Save** to save your changes. A message displays indicating your changes were successfully saved.
5. When you are done editing your school profile, and have saved all information, click the **School Profile/Back** button to return to the *School Profile* tab.

## Terms Tab

In order to make Course Exchange available to students based on their assigned priority registration dates, Home Colleges participating in Course Exchange must assign students a registration date pursuant to the three enrollment priority levels identified in Section 58108 of article 1 of subchapter 2 of chapter 9 of division 6 of title 5 of the California Code of Regulations.

The three enrollment registration priority levels, under Section 58108, are defined as:

Enrollment Registration Priority Level Definitions
students who have completed orientation, assessment, and developed student education plans and are eligible as a member of the armed forces or a veteran pursuant to Education Code section 66025.8 or as a foster youth or former foster youth pursuant to Education Code section 66025.9
students who have completed orientation, assessment, and developed student education plans and are eligible and receiving services through Disabled Student Programs and Services or Extended Opportunity Programs and Services
students who are continuing students not on academic or progress probation for two consecutive terms as defined in section 55031 and first time students who have completed orientation, assessment, and developed student education plans

Districts or colleges may establish the relative order of priority for additional subcategories of students within each of the three state registration priority levels.

2. Use one of the following two options below to begin creating a course in Course Exchange.

If you have <b>already defined</b> the course in your SIS:	If you have <b>not yet defined</b> the course ID in your SIS:
Enter that course ID in the <i>Local course ID</i> field and click <b>Populate</b> to auto-populate all the rest of the fields on this screen with information from your SIS.  Proceed to step 3, below, and enter any remaining field values, as needed.	Enter the new course ID in the <i>Local course ID</i> field.  Proceed to step 3, below.

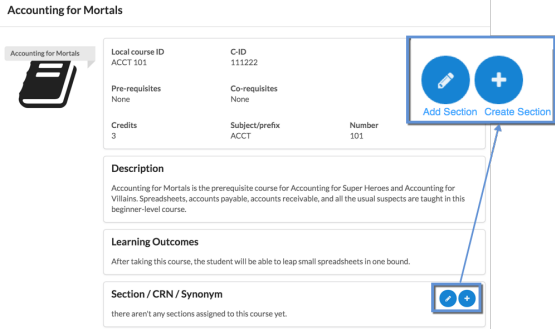

3. Click the **Active** button to toggle the course to an active or inactive status. As a general rule:
  - Make a course active once you are done making all changes for it and are ready to publish it to students so that they can see and enroll in the course in Course Exchange
  - Once the course's term is complete, remove the active status for the course before the next term begins
  - Districts can choose to not activate courses for colleges in their district that are not participating in Course Exchange
4. Select a term from the *Term* drop-down list. If you do not have any terms configured you must navigate to the *Terms* tab and create one.
5. In the C-ID field, enter the course identifier (C-ID).
6. Enter values in the rest of the fields for the course (*Title, Credits, Learning Outcomes, Pre-requisites, Co-requisites, Subject/prefix, Number, and Description*).
7. Click **Create** to save your course. The **Save** button changes to display as **Success** indicating that your changes have been saved.
8. When you are done making any changes and have saved your course, click **Back** to return to the *Courses* tab.

### To search for courses:

1. Click the **Search** button to display any existing courses. Or, enter a course name and click **Search** to narrow your results.

The screenshot shows the 'Courses' tab interface. At the top left, there is a 'Courses' header with an 'Add Course' button. Below this is a search section with a 'Course Title' input field and a blue 'Search' button. Underneath the search bar, a table displays the results of the search. The table has a header row with columns: ID, C-ID, Course, Subject, and Number. A single row is shown with the following data: ID: 26, C-ID: 111222, Course: Accounting for Mortals, Subject: ACCT, Number: 101. To the right of the table, there are 'Delete' and 'Edit' buttons for the listed course.

2. Use the table below to determine which action you want to take on the course.

To...	Do this...
Display a pop-up summary of the course information	Click the <i>ID</i> link  
Delete the course	Click the <i>Delete</i> link
Open the <i>Edit Course</i> screen where you can make changes to the course information	Click the <i>Edit</i> link

**Note:** The course pop-up summary includes an Add Section icon and a Create Section icon.

3. Once your changes are complete, click **Save** and then the **Back** button to return to the *Courses* tab.

## Adding/Creating Course Sections

You can add or create course sections by using the following steps.

1. Log in as a Course Exchange, District, or School Admin. If you are an administrator for a multi-school district, select the school you want to administer from the *School* drop-down list on the home page.
2. Click the *Courses* tab.
  - If you have not created any courses yet, create one following the steps here: [Courses Tab](#) on page 11.
3. Enter a course name in the *Search* field for the course to which you want to add sections and click **Search** to display courses that match your search term. You can also simply click **Search** to display all existing courses.

4. Access the *Course Section* screen in one of the following two ways:

- **From the Course ID**
  1. Click the course's *ID* link in the search results to open the *Course Details* pop-up window.

**Accounting for Mortals**

Accounting for Mortals

Local course ID ACCT 101	C-ID 111222

## Glossary

---

**CCC:** California Community College.

**CCCCO:** California Community College Chancellor's Office.

**C-ID:** Course Identification Numbering System. <https://c-id.net/>

**Common Course Management System (“CCMS”):** The Common Course Management System and associated components that are required to implement the OEI Exchange. Instructure’s Canvas course management system is the core platform for the CCMS.

**CRN:** Course Record Number. CRN is used by Ellucian and Colleague. PeopleSoft uses the term Synonym for the same meaning and some other systems use the term Section.

**Home College:** Any OEI consortium member college where the student is currently enrolled, intends to complete a degree or certificate program; and where the student first completed the following matriculation steps: New Student Orientation, English/Math placement, and an official education plan developed by a counselor. The Home College receives credit for the degree completion and/or transfer attained.

**Ineligible Student:** If a student is ineligible, a message displays informing them that they cannot participate in Course Exchange when they log in. Ineligible students are generally those who have not completed: orientation, assessments, or an EdPlan.

**OEI Course Exchange:** The component of the OEI that facilitates students registering for online courses offered by participating colleges, reduces and/or eliminates barriers and duplication in the application and matriculation processes, and automates associated business processes. Enabling students to enroll in courses that are critical to completing their educational goals but are not readily available at their Home College, the Course Exchange is intended to facilitate the timely completion of educational goals that students establish at their Home Colleges.

**Online Education Initiative (“OEI”):** The overarching California Community College (CCC) initiative, funded by the CCC Chancellor’s Office, that provides support to college online teaching and learning programs and coordinates resources and services available to the entire CCC system. Resources include the CCMS and other components such as student resources, faculty resources, other technology resources, and research and policy documentation.

**Synonym:** A synonym is PeopleSoft's name for the Course Record Number or course Section.

**Priority Registration Dates:** The registration date assigned to the student by the Home College.

**Teaching College:** Any participating consortium member college with faculty teaching courses where students are enrolled using the CCC Course Exchange registration process. The Teaching College receives apportionment for enrollments. Fees for classes taught by faculty employed through the teaching college are paid to the Teaching College.

**Note:** The Teaching College can also be the same as the student's Home College if the online course they take is offered by the Home College in Course Exchange.
