CCCApply Dual Enrollment Sub-Committee Meeting

Jane Linder, Product Manager

Mike Caruso, Product Owner

Jennifer Coleman, Statewide Program Director

Rick Snodgrass, Project Manager

Agenda

- Welcome & Introductions
- Dual Enrollments Trends
 - Year-over-Year Dual Enrollment Growth
 - Dual Enrollment Populations
- Proposed Dual Enrollment Enhancements
 - Survey Results
 - Requirements review on top priorities
- Closing, Housekeeping, Next Meeting Date?

Welcome & Introductions

- Largest number of participants ever
- High-school and CSU members invited
- Invited representation from every region

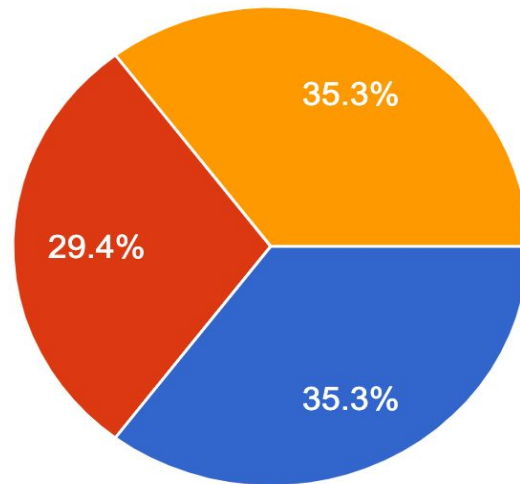

Dual Enrollment Trends

- Year-over-Year Growth
 - Why?
- Dual Enrollment populations
 - High School students → largest segment
 - What other student populations do we need to consider and ensure we represent?

Survey Results:

Separate Dual Enrollment app or modify existing app?

Which would serve our dual enrollment students best: 1. A separate dual enrollment application or 2. A modification of the existing standard applications that do not apply to dual enrollment students?
17 responses

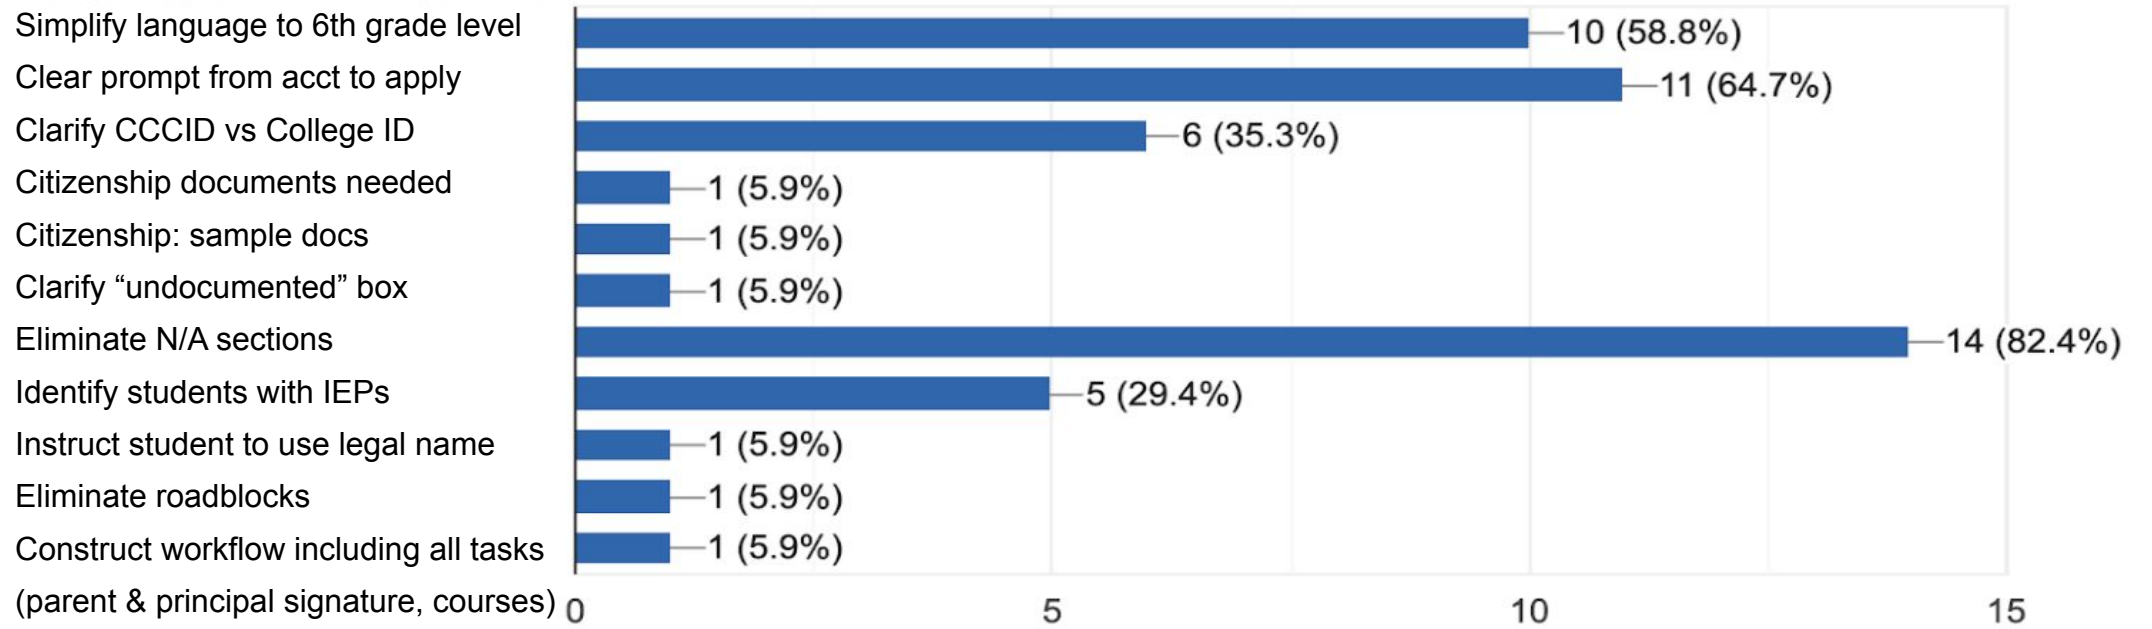

- A separate dual enrollment application
- A modification to the existing standard application so that it is streamlined for dual enrollment students
- I have no preference as long as the requirements for our dual enrollment students are addressed

⇒ Pros and Cons?

Survey Results: Enhancements

From the following list of proposed CCCApply enhancements for dual enrollment students, please choose up to three top priorities for development

17 responses

Requirements for Top Priorities

1. Eliminate non-applicable sections
2. Provide clear prompt to ensure students transition from account creation to application
3. Simplify language to 6th grade level

Runner up:

- Identify students with IEPs

Additional Survey Suggestions:

1 - Make sure students with two last names, or hyphenated, use only their legal name to match their high school name and their DE college application. This will help immensely with FAFSA, transcripts, etc.

2 - Create a dual enrollment form workflow complete with parent approval/signature and high school principal signature. Course approval needs to be specific so course selection needs to be from a state database and kept up-to-date.

3 - There are too many questions in the Dual Enrollment app. Students should not have to select a major - just asked what Dual Enrollment class they are taking. If students choose Dual enrollment for a specific term, why are they asked if they have ever attended college? Application should all be on-line application - no paper - a one stop shop - eliminate questions that don't make sense to them. Have a place for parents and student to sign at the end of the application

Questions & Feedback

- Jane Linder, Student Success Suite Product Manager
jlinder@ccctechcenter.org
- Mike Caruso, Student Success Suite Product Manager
mcaruso@ccctechcenter.org
- Jennifer Coleman
Statewide Program Director for Student Success Suite
jcoleman@ccctechcenter.org

Closing, Housekeeping & Next Mtg Date?

1. **Send membership additions, student testers, or general questions to:**

Rick Snodgrass - rsnodgrass@ccctechcenter.org

2. **Link to our CCCApply Confluence space can easily be found in Rick's email signature.**
3. **Next meeting date?**

Thanks for your participation and feedback today!
