Student Assessment Data Record**

DOMAIN	RECORD	LENGTH
<b>SA</b>	<b>STUDENT ASSESSMENT DATA RECORD</b>	<b>40</b>
<b>Reporting Domain</b>		
The following record layout indicates the format in which the districts report information on student assessment tests administered during the prior year.		
The actual test dates (SA05) reported in the file should encompass the preceding fiscal year (July 1 - June 30). For example, report the Student Assessment file with the term type of '110' with assessment test dates of July 1, 2010 through June 30, 2011.		
The file with these records is submitted each October 1 for the previous year. This record is 40 characters long. The first two positions contain the record code "SA".

<b>Processing Notes</b>
These data elements may frequently need to be submitted when the student is no longer enrolled or when the student took the assessment test prior to enrolling. Such assessments should be reported with the term identifier indicating the term in which the reporting occurs (the year with an annual term type [see GI03]), and with the Assessment Date (SA05) indicating the actual date of the test.)
