# OpenCCCApply Data Element Dictionary

The complete specification for the *OpenCCCApply Standard Online Application for Admission* has three parts:

- Part 1: Data Element Dictionary
- Part 2: Application Form Specifications
- Part 3: Submission Calculations Service

#### Scope of This Document

This document describes the application-relevant data elements for the OpenCCCApply Application for Admission. It does not define "administrative" data elements such as table linkages and timestamps. Most of the data elements in this Data Dictionary directly represent the applicant's responses on the OpenCCCApply application. Some are derived or calculated by OpenCCCApply—for example, by the Submission Calculations Service. Others are entered by or for the colleges through a back-end 'Administrator' or other interface.

#### Online User Guides:

Configuring the Administrator, Setting Up Downloads, and Using the Report Center

Visit the Documents section of the CCCApply Project site to find documentation and user guides for the OpenCCCApply staff tools, including:

- Setting up users, terms, majors, rules & supplemental questions in the Administrator;
- Setting up download files & database tables;
- Looking up applications and running reports in the CCC Report Center

**Tables** 

#### Format of Data Element Tables

Information about each data element is presented in a table with the following layout and contents:

#### **Data Element Descriptor**

Data Element: The OpenCCCApply database table and data element, in format 'table: element'.

Description: A description of what the data element represents.

Format, Length: The format (data type) and length of the data element.

Values: Possible values that the data element can have. When presented in the format 'X

= Description', X is the stored (and downloadable) value, and the description is the meaning of the value. For menus, reports, and displays, the description (perhaps

edited) is used.

Allows Null: Whether the data element can be null in a submitted application.

Default: The data element's default value, if any; most OpenCCCApply values do not have a

default.

Usage: Information about how the data element is used.

Notes: Additional information, comments, and/or question about the data element.

Xap Field: The name of the equivalent data element in the Xap CCCApply system (if

available).

Revision Log: Information about changes made to this table.

# Data Downloading

Application data will be available to colleges for downloading. For the benefit of Xap CCCApply users, the formats of downloadable data should correspond to the formats in the Xap system where possible. Where data correlates to CCCCO MIS data elements, reported by colleges to the Chancellor's Office in a pre-defined format, the downloadable data must be in the MIS format.

#### In-Progress Data

The **in-progress** applications are stored in a normalized database. The **tables in this document** represent the data as it is stored in this database. When an application is **submitted**, the data is copied to another database into two tables that are used for downloads and reporting.

#### Download and Reporting Data

The download and reporting tables are the **submitted\_application** and **submitted\_question\_response** tables. The submitted\_application table consists of all of the application data in a single flat row. The submitted\_question\_response table represents a flat version of the answers to the supplemental questions. The content of both of these tables is available for downloading and reporting and is documented in the OpenCCCApply Online User Guide, a link to which can be found on the CCCApply Project site http://www.cccapplyproject.org/documents.

### Changes to Data Elements

The data elements in this Data Dictionary are subject to change during the implementation of annual updates and at other times. Fields may be added or deprecated. Also, field values may be added, modified, or deprecated. All changes are documented in the Change Log.

Values: The format of the ccc\_id is:

Positions 1 - 3: AAA thru ZZZ (Sequentially assigned beginning with AAA)

&user3=z (where x, y and z = the names of other unique campaigns). For example, the format for implementing a URL for three campaigns would look like this:

https://www.opencccapply.net/cccapply-

<u>welcome?cccMisCode=231&user1=x&user2=y&user3=z</u>
An example of the practical implementation of this format is:

https://www.opencccapply.net/cccapply-

welcome?cccMisCode=231&user1=collegeIntroPage&user2=advertOnGoogle&us

er3=advertOnGoodMorningAmerica

The value from the &user1 is stored in the campaign1 database field for submitted applications (i.e. for the example above, the campaign1 field in the

database = collegeIntroPage, the campaign2 field in the database =

advertOnGoogle), and so on.

Providing Your Social Security Number or Taxpayer Identification Number

You have chosen not to provide your Social Security number (SSN) or Taxpayer Identification Number (TIN). This is your right, however the California Community Colleges is required to inform you of the federal laws for collecting and submitting your information to the IRS, and the penalties that may be levied against you for failing to provide a valid Social Security Number or Taxpayer Identification Number. These regulations include:

- The Social Security Number or Taxpayer Identification Number is required to claim tax credits for higher education costs known as the American Opportunity Tax Credit in accordance with the Taxpayer Relief Act of 1997.
- Federal regulations require the California Community

• • •

Colleges to provide specific information to the Internal Revenue Service (IRS) for the purpose of filing an information return (IRS Form 1098-T "Tuition Statement") for each student in attendance, with a few <u>exceptions</u>. The specific information collected includes the student's name, address, Social Security Number (SSN) or Taxpayer Identification Number (TIN/iTIN), and enrollment status, as well as the amount of tuition paid or billed, and scholarships received. (26 C.F.R. 1-60505- 1(b)(2)(ii).)

• Failure to provide a correct Social Security Number while claiming tax credits for specified education expenses may result in a penalty levied against the student by the IRS in the amount of \$100, per year, until the missing or incorrect information is provided (26 C.F.R. 1-60505-1(e)(4)).

In addition, there are more reasons why it may be to your advantage to provide your SSN or TIN on this application. These include:

- Speedier Application Process Some colleges may require you to contact them for a substitute ID number if you do not provide your SSN.
- Availability of Your Records Providing your SSN is the best way to make sure your records are accessible when you need them. If you do not provide your SSN:
  - Your enrollment or degree may not be found in the National Student Clearinghouse.
  - Employers may not be able to verify that you received a degree or certificate.
  - You may encounter difficulties sending transcripts to other colleges or universities.
- Financial Aid Your SSN is required when applying for federal and state aid programs.
- Tax Credits and Deductions Providing your SSN helps you (or someone claiming you as a dependent) receive tax credits or deductions to which you are entitled.

All CCCApply institutions are required by law to keep your personal information private and secure and may not to reveal it without your permission. If you provide your SSN or TIN, you can be confident that it will not be misused.

To enter your Social Security number or Taxpayer Identification Number, click "Enter SSN" to return to the previous page.

By clicking "I Decline" I confirm that I have read and understand the federal IRS laws and regulations for collecting and reporting my Social Security Number or Taxpayer Identification Number as stated above, and the state privacy disclosures appearing in the Privacy Policy.

Storage/Usage: Stored in database for use in auto population.

Included in Account Profile.

Notes/Constraints: AB46 and other legislation prohibit requirement of Social Security

Number for admission or student record-keeping. While the colleges and many educational agencies remain reliant on SSN as the only reliable unique identifier of a student, the applicant must have the

option not to provide it.

Due to recent IRS penalties levied against California community colleges for failing to provide, or providing invalid, social security or taxpayer identification numbers, CCCCO Legal advises compliance with IRS Requirements for Collecting SSN/TINs (IRS p. 1758) – which includes displaying specific regulations/restrictions "to every student in attendance"- including those not required to provide a SSN/TIN or are not eligible to obtain one (see Exceptions). Statement to students

not eligible to obtain one (see Exceptions). Statement to students includes what is being collected and provided to the IRS and why, and the admonishments/penalties for not providing one/valid number. SSN Encouragement language contains reiteration of "statement" with

additional confirmation checkbox or "click here to confirm

acknowledgement of receipt of information."

Prompt Text: [Checkbox] Check this box if you **do not** have a Social Security number

or Taxpayer Identification number, or decline to provide one at this time.

Undocumented international students, nonresident aliens, and other **exceptions**, may not have a Social Security Number (or Taxpayer

Identification Number) and should check this box.

Hover Help: If you do not have a Social Security Number or Taxpayer Identification

Number, or decline to provide one at this time, check this box.

#### Date of Birth

Data Element: personal\_info: birthdate

Description: Applicant's Date of Birth

Format, Length: date, 13

Values: Valid date

Allows Null: No

Default: None

Usage: Birth date is used in the admission application to calculate age, to identify

applicants who are too young to transact business online per COPPA (Child Online Privacy Protection Act—under age 13), and to identify minors for residency calculation and collection of parent or guardian contact information. OCR acknowledges that collection of birth date is allowed under California State law.

For residency and minor identification, the applicant's age is calculated as of the

day before the start-of-term date <ResidencyDeterminationDate>.

Notes: Populated from Account database at time of submission.

Birth date is sensitive information, protected by federal law and the Office of Civil Rights (with regard to age discrimination). Any change to the text, prompt, access, or transmission of this data item must be approved by the Legal Counsel of the

CCC Chancellor's Office and the Office of Civil Rights.

This information may not be provided to staff in the capacity of making a decision to admit an applicant until after the applicant is admitted—that is, uniformly

enabled to register for classes.

this choice provide the required option not to identify gender, there are also

people who are neither male nor female or are both.

# Needs & Interests Tables

OpenCCCApply employs two tables for the questions on the Needs & Interests page:

Each table row includes a code representing the response ('ni\_id'; see <u>Table of NI\_ID\_Values</u> below) and a 'description' of the response.
- The 'application\_ni' table, which includes the 'ni\_id' for every positive response made by the applicant on the Needs & Interests page.
