Application Form Specification

Version 1.1

Application Form Specification

The complete specification for the *CCCApply Standard Online Application for Admission* has the following three parts:

- Part 1: Data Element Dictionary
- Part 2: Application Form Specification
- Part 3: Submission Calculations Service

Scope of This Document

This document addresses the CCCApply Standard Application 'front end' - the user interface, the functional requirements for displaying the forms and storing the data, and the data element definitions.

Online User Guides:

Configuring the Administrator, Setting Up Downloads, and Using the Report Center

Visit the Documents section of the CCCApply Project site to find installation and user guides for the CCCApply staff tools, including:

- Setting up terms, majors, rules & supplemental questions in the Administrator;
- Adding authorized Users and resetting downloads
- Setting up download files & database tables;
- Looking up applications and running reports in the CCC Report Center.

General Information

Overview

The CCCApply Standard Application includes a multipage online form providing a complete application to a particular California Community College, plus related pages. It includes a page for initiating and managing applications (My Applications); form pages for the student to enter information; an electronically-signed submission page; and post-submission pages including a confirmation page and a page of links to system-wide information such as financial aid applications and other related opportunities.

The CCCApply Standard Application Form includes several 'smart' features:

- College-customized data and content (terms list, majors list, rules, supplemental questions, etc.).
- Logic to prevent conflicting responses and to flag situations that colleges might want to investigate.
- Preliminary residency determination based on applicant data (*aka* the 'residency algorithm').
- Other determinations, such as admission eligibility and AB540 eligibility, based on applicant data.
- Presentation of links (for example, an AB540 link) based on applicant data.
- Auto-population of form data from the Account Profile and eventually previous applications.

Users begin an CCCApply Standard Application from the college portal/website. Applicants can navigate to the college website or by clicking on the "Apply Now" link on the www.cccapply.org website.

OpenCCC Student Account

Users must sign in to OpenCCC Federated ID system before or immediately after going to CCCApply. An introduction page could be displayed before the user signs in, but all other pages require the user to be signed in because they will contain user-specific data.

Format of Application Question Tables

For each question in the CCCApply Online Application, this document provides a table headed by a brief descriptor of the question and containing the following elements/row:

<Question Descriptor>

<i>Question Text:</i>	The exact text of the question as it appears on the Application page. Angle brackets indicate a variable, such as <date:RDD> or <CollegeName>.
<i>Conditions:</i>	Conditions under which the question appears. "Always" indicates a question that appears in all situations.
<i>Additional Text:</i>	Instructions, legal statements, and/or other text that appears in smaller gray type.
<i>Response Options:</i>	A description or list of the options available to the user. For menus and some radio buttons, includes actual stored values plus menu/button text: e.g., 'F = Female'.
<i>Hover Help:</i>	The help text that appears when the cursor hovers over the entry field. All questions have hover help.
<i>Pop-Up Help:</i>	Help text that appears in a pop-up when hyperlinked text is clicked.
<i>Field Error Check:</i>	Error checking for basic validity, such as 5 or 9 digits for ZIP code.
<i>Page Error Check:</i>	Error checking for incompleteness (required questions not answered) and for contradictory answers to two or more questions.
<i>Notes:</i>	Any other relevant information about this question.
<i>Data Element:</i>	The database table and data element where the response to the question is stored.
<i>Revision Log:</i>	Date of the most recent revision of this table.

Conditional Questions and Fields

In general, CCCApply will display only the questions and fields that need to be asked based on responses to earlier questions (including account data elements). Questions and response fields that might or might not appear are called 'conditional'. The conditions determining whether a question is asked are identified in each question table.

Residency Determination Date (RDD)

Per the California Education Code, residence for purposes of CCC tuition fees is based on the student's status on the Residence Determination Date (RDD), which is the day before the term start date. The variable <RDD> occurs frequently in this document, and represents the actual Residence Determination Date based on the term being applied for. Variations of the <RDD> variable also occur, such as:

<RDDyear>, the year of the RDD.

<RDDmonthyear>, the month and year of the RDD.

<RDD minus 1 year>, the RDD with the year decremented by 1.

Default Values and Auto-population

In general, CCCApply does not provide default answers to displayed questions. The few cases where a default is provided (Country = 'United States' or State = 'California') are identified in the question tables.

Dates

Date questions use menus for month and day, and a text field for the four-digit year. Dates will always be subject to the following basic error checks, in addition to any other error checking required:

The day must be valid for the month and year.

The year must be four digits and not before 1900.

Note: No general maximum date is needed since most (if not all) date fields have error checking for a particular maximum date.

Language Toggle

As described in the CCCApply Specification, Part 1, the online application pages include a language toggle similar to the one in Xap CCCApply. However, the language toggle in CCCApply affects only the language of the 'hover help'. All other language of the online application is always in English.

This document does not currently provide Spanish translations for the 'hover help'. It is likely, however, that the translations will be added to the question tables in the future.

District Applications

Distinguishing district applications is required on two screens in CCCApply, My Applications and the Enrollment page of the application. A district application is an application to a college which has more than one college in the district. If there is more than one row in the college table with the same district_id as the current college, then it is a district application. (Note: The **current college** is the college from which the applicant initiated the application process).

My Applications Page

My Applications Page processes applications as follows:

In-Progress Applications

1. Display all in-progress applications for any college in the California Community Colleges District for the signed-in user.
2. For applications that are **not for the current college** see options:

Option 1 – Disable Resume button

1. Disable the Resume button.
2. Modify the following message in the **Applications in Progress** section:

If you have previously started an application but not yet submitted it, you can resume it or delete it at anytime. *If the Resume button is not active, Sign Out, return to the college website of the application and click apply. Once you return to My Applications the Resume button will be active.*

Option 2 – Allow Resume and change current college

When Resume is clicked for a college that is not the current college:

1. Change the current college to the college of the In-Progress application.
2. Change the “brand” to be the college of the In-Progress application.
3. All terms, majors, etc. should be those of the In-Progress application.

Submitted Applications

1. Display all submitted applications for the signed-in user regardless of which college the application is for.

Enrollment Page

Applicants cannot apply to the same college for the same term. For district applications, an applicant may apply to only one college within the district for a given term. The following logic will enforce this rule. The following steps should occur when the Continue button is clicked:

1. **Perform all other verifications** for the enrollment screen to ensure all data is valid.
2. **Find all colleges for the district.** Find all college rows with the same `district_id` as the current college. If there is only one, it is **not** a district application. If there is more than one, continue.

Application Form Specification

- 3. Check for In-Progress applications.** For each college_id other than the college_id of the current college, check if there is an in-progress application for the user for the same term. If true, this is an error that will render the page incomplete and not allow the user to complete the application (See error message below).
- 4. Check for submitted applications.** For each college_id other than the college_id of the current college, check if there is a submitted application for the user for the same term. If true, this is an error that will render the page incomplete and not allow the user to complete the application (See error message below).

In-Progress Error Message: “You may apply to only one college in the <district_name> for the term you selected. You already have an in-progress application to another college in this district. Click on **My Applications** to see what other application you have started.”

Submitted Application Error Message: “You may apply to only one college in the <district_name> for the term you selected. You already submitted an application to another college in this district. Click on **My Applications** to view your submitted application or select a different term for this application.”

Note: <district_name> in the above messages is the name field from the district table.

Account & Mailing Information

Link to Account Profile (Edit Account)

Most of the data on the Account & Mailing Information page consists of Account data that is displayed for review and that can be edited by clicking 'Edit Account' (which brings up the My Account/Account Profile page). Data populates from My Account to the submitted application on submission, as indicated in the *Table of Account Data Saved in Application Database*. For details about these data elements, see the Account Creation and Account Profile Specifications. The only information directly provided on the Account & Mailing Information page is the applicant's mailing address.

this field, the text, operational characteristics, and usage must be approved by the Legal Counsel of the CCC Chancellor's Office.

The following validity checks are applied to the SSN/TIN (and SSN/TIN Type) entries:

If SSN fields are not empty AND the "ssn_type" field indicates "Social Security number" THEN

- Area Code (first three digits) *may not be* 000, 666 or between 900 and 999 (inclusive).
- Group Number (middle two digits) may not be 00.
- Serial Number (final four digits) may not be 0000.
Else error message: *"Your Social Security Number is invalid for the Type you've selected. Please re-enter the number or change the number Type."*

If SSN fields are not empty AND the "ssn_type" field indicates "Taxpayer ID Number" THEN

- Area Code (first three digits) must be between 900 and 999 (inclusive).
Else, error message: *"Your Taxpayer Identification Number is invalid for the Type you've selected. Please re-enter the number or change the number Type."*

Do not allow a value to be pasted into either SSN field. Users must type both entries.

Prompt Text:

The Social Security Number is required to claim tax credits for higher education costs known as the American Opportunity Tax Credit in accordance with the Taxpayer Relief Act of 1997.

Federal law requires the California Community Colleges to provide specific information to the Internal Revenue Service (IRS) for the purpose of filing an information return (IRS Form 1098-T "Tuition Statement") for each student in attendance, with a few **exceptions.**

The information required by the IRS includes the student's name, address, Social Security Number (SSN) or **Taxpayer Identification Number** (TIN/iTIN), and enrollment status, as well as the amount of tuition paid or billed, and scholarships received. (26 C.F.R. 1-60505-1(b)(2)(ii).)

Application Form Specification

• • •

Failure to provide a correct Social Security Number or TIN while claiming tax credits for specified education expenses **may result in a penalty levied against the student by the IRS in the amount of \$100, per year, until the missing or incorrect information is provided** (26 C.F.R. 1-60505-1(e)(4)).

In addition, California Education Code sections 68041 and 70901(b)(7) authorizes the California Community Colleges Chancellor's Office (CCCCO) to collect information you submit through the OpenCCC Online Student Account and CCCApply Online Application for Admission for the purposes of completing and submitting California College admission applications and financial aid on your behalf.

Further, information acquired by the CCCCCO is subject to the limitations set forth in the Information Practices Act of 1977 (Title 1.8 (commencing with Section 1798) of Part 4 of Division 3 of the Civil Code). Compliance with these laws is identified in the [Privacy Policy](#).

By providing my Social Security Number or Taxpayer Identification Number below, or by indicating that I do not have a Social Security Number or decline to provide one at this time, **I confirm** that I have read and understand the federal laws provided above, and the state privacy laws and regulations provided in the [Privacy Policy](#). Your Social Security Number must be accurate to ensure the integrity of your permanent record and to avoid potential penalties imposed by the IRS for providing an incorrect number.

Providing Your Social Security Number or Taxpayer Identification Number

You have chosen not to provide your Social Security number (SSN) or Taxpayer Identification Number (TIN). This is your right, however the California Community Colleges is required to inform you of the federal laws for collecting and submitting your information to the IRS, and the penalties that may be levied against you for failing to provide a valid Social Security Number or Taxpayer Identification Number. These regulations include:

- The Social Security Number or Taxpayer Identification Number is required to claim tax credits for higher education costs known as the American Opportunity Tax Credit in accordance with the Taxpayer Relief Act of 1997.
- Federal regulations require the California Community Colleges to provide specific information to the Internal

Revenue Service (IRS) for the purpose of filing an information return (IRS Form 1098-T "Tuition Statement") for each student in attendance, with a few exceptions. The specific information collected includes the student's name, address, Social Security Number (SSN) or Taxpayer Identification Number (TIN/iTIN), and enrollment status, as well as the amount of tuition paid or billed, and scholarships received. (26 C.F.R. 1-60505- 1(b)(2)(ii).)

- Failure to provide a correct Social Security Number while claiming tax credits for specified education expenses may result in a penalty levied against the student by the IRS in the amount of \$100, per year, until the missing or incorrect information is provided (26 C.F.R. 1-60505-1(e)(4)).

In addition, there are more reasons why it may be to your advantage to provide your SSN or TIN on this application. These include:

- **Speedier Application Process** - Some colleges may require you to contact them for a substitute ID number if you do not provide your SSN.
- **Availability of Your Records** - Providing your SSN is the best way to make sure your records are accessible when you need them. If you do not provide your SSN:
 - Your enrollment or degree may not be found in the National Student Clearinghouse.
 - Employers may not be able to verify that you received a degree or certificate.
 - You may encounter difficulties sending transcripts to other colleges or universities.
- **Financial Aid** - Your SSN is required when applying for federal and state aid programs.
- **Tax Credits and Deductions** - Providing your SSN helps you (or someone claiming you as a dependent) receive tax credits or deductions to which you are entitled.

All CCCApply institutions are required by law to keep your personal information private and secure and may not to reveal it without your permission. If you provide your SSN or TIN, you can be confident that it will not be misused.

- Storage/Usage:** Stored in database for use in auto population.
Included in Account Profile.
- Notes/Constraints:** AB46 and other legislation prohibit requirement of Social Security Number for admission or student record-keeping. While the colleges and many educational agencies remain reliant on SSN as the only reliable unique identifier of a student, the applicant must have the option not to provide it.
- Due to recent IRS penalties levied against California community colleges for failing to provide, or providing invalid, social security or taxpayer identification numbers, CCCCCO Legal advises compliance with IRS Requirements for Collecting SSN/TINs (IRS p. 1758) – which includes displaying specific regulations/restrictions “to every student in attendance”- including those not required to provide a SSN/TIN or are not eligible to obtain one (see Exceptions). Statement to students includes what is being collected and provided to the IRS and why, and the admonishments/penalties for not providing one/valid number. “Sexual Orientation” Sexual orientation describes an enduring pattern of attraction—emotional, romantic, sexual, or some combination of these—to persons of the opposite sex, the same sex, or to both sexes, as well as the genders that accompany them.
“Gender Identity” means one’s private sense of being male or female.
“Gender Expression” means a person’s gender-related appearance and behavior, whether or not stereotypically associated with the person’s assigned sex at birth.
“Transgender” is the state of one’s gender identity (self-identification as woman, man, neither or both) not matching one’s assigned sex (identification by others as male, female or intersex based on physical/genetic sex).

Notes: Used in AB540 Waiver algorithm.

Home schooled students are not eligible for the AB540 exemption if instruction was provided by a tutor or other person (including the student's parents) who did not have a valid California teaching credential, or was not affiliated with a state approved home-schooling program.

From CCCCCO Legal Advisory 07-01: "Home schooling is instruction by a tutor or other person (including the student's parent) who does not have a valid California teaching credential. Local high schools are charged with determining whether to accept home schooling as valid attendance. Therefore, community college districts that are asked to consider home schooling as high school attendance for purposes of granting the exemption should confer with the public high school the student would have attended if not home schooled. If that high school accepts or would accept home schooling as valid high school attendance, the community college should also accept it for purposes of assessing whether the student can demonstrate three years of high school attendance."

Colleges Attended Section

The number of College/University question sets that will appear depends on the response to Number of Colleges Attended.

If the Number of Colleges Attended is '5 or more', we probably want to insert instructional text after the Number of Colleges Attended question. This text would tell the user which colleges to list: most recent; most significant; anything as long as the highest degree is included.

To minimize redundancy, this document provides tables for the College/University 1 question set only. For College/University 2, College/University 3, and College/University 4, everything is the same as for College/University 1 **except**:

Wherever it occurs in the tables, "College/University 1" will be replaced by "College/University 2", "College/University 3", or "College/University 4" as appropriate.

The question set for College/University 2 will appear when Number of Colleges Attended is '2', '3', '4', or '5 or more'.

The question set for College/University 3 will appear when Number of Colleges Attended is '3', '4', or '5 or more'.

The question set for College/University 4 will appear when Number of Colleges Attended is '4' or '5 or more'.

Sorting Colleges Attended

When there are two or more colleges, they can be listed in any order by the applicant. However, in the database they will be sorted and saved in order of attendance, with College/University 1 the most recently attended. The primary sorting date will be Attendance Ended; the secondary sorting date will be Attendance Began. If two or more colleges have the same Attendance Ended date and the same Attendance Began date, it doesn't matter which comes before the other in the sorting.

Note: In the Xap system, once the Education page has been completed, the schools are resorted on the Education page to match the database sorting. It does not matter whether CCCApply does this. However, if CCCApply does resort the Colleges Attended list, to prevent confusing situations for the user, the sorting should not occur until the page is completed (i.e., sorting should not occur when the page is saved but not completed).

In the military, your "State of legal residence" (also called "domicile") is the place you consider as your true, fixed, and permanent home. It is the state to which you officially intend to return after your military service.

"Home of record" is almost always the state where you first joined the military. "Home of record" is an accounting term used by the military to determine a number of military benefits, such as travel allowances, transportation expenses, travel time to report to duty, etc.

"Home of record" and "State of legal residence" are usually the same, because most people joining the military do so in the state that is their legal residence. However, "Home of record" and "State of legal residence" need not be the same.

Residency

Conditionality of the Residency Page

The Residency page will have no questions if user has a Visa type that does not allow residency, as indicated in the [Table of Visa Types](#) ('no' in the third column).

When conditions indicate the Residency page has no questions, the page and tab will be hidden. If the Residency page had previously been completed or partially completed and then data is changed on the Citizenship/Military page that causes the Residency page to be hidden, then the data on the Residency page will be blanked out.

The '*Conditions*' indicated in the tables for questions on the Residency page do not include the conditions under which the page will have no questions.

Conditional Wording on the Residency Page

Most questions on the Residency page have two forms:

They are asked of the applicant if the applicant *is not* subject to the care and control of a parent or guardian.

They are asked of the parent or guardian if the applicant *is* subject to the care and control of a parent or guardian

For such questions, the exact wording of hover help and error messages generally will also be conditional based on whether or not the applicant is subject to the care and control of a parent or guardian. In the tables for Residency questions, a variable such as <you/your parent or guardian> will indicate conditional wording for hover help and error messages.

Needs & Interests

Storage of Responses in Database

Data storage for the responses on the Needs & Interests page is different than for other pages of the CCCApply online application. For each positive response made on the page, a row is stored in the Application_NI table with the appropriate 'ni_id' as indicated in the *Table of NI_ID Values* below.

When an application is in progress (i.e. the student has not yet submitted their application) responses to the CCCApply application needs and interests questions are handled by the needs_and_interests and application_ni tables. Once the student submits their application, their responses to the needs and interests questions are then mapped and stored in their corresponding columns in the submitted_application table (i.e. a response to "Comfortable with English" is stored in the comfortable_english column in the submitted_application table, and is available for download). See the Download Client guide for further details about downloadable needs and interests fields.

Note: A "positive response" is defined as a response that could lead to follow-up action by a college. In almost all cases, this means a Yes answer or a checkbox checked. However, for the question about comfort reading/writing English, No is the positive response because it is the response that could trigger the college to provide information about programs or services for those who might need some help with English.

The question is not really about “Main Language”.</p> <p>Per MIS, this question was originally designed to ask for “Primary language” with drop-down menu of options. That data was dropped by MIS as potentially discriminatory; all colleges needed to know was which students might benefit from language-assistance services. In original Live implementation, the question was: “Is English your primary language?” In 2003, the current form of the question was implemented to better identify applicants who might need language assistance. Response has always been optional.</p>

- Additional Text:** *(Your response does not obligate you in any way. To be eligible to participate on an intercollegiate team, you must be enrolled in at least 12 units.)*
- Response Options:** As shown in *Question Text*.
- Hover Help:** Indicate whether or not you are interested in participating in sports (other than P.E. classes) while attending college.
- Pop-Up Help:** **Levels of College Sports**
California Community Colleges generally offer the opportunity to participate in sports at various levels, though not all colleges offer sports at all levels.
At the highest level, **intercollegiate** teams (also called ‘varsity teams’) represent the college in competition against other colleges, typically in conferences under the authority of the California Community Colleges Athletic Association (CCCAA). For more about this level of college sports, see the website for the CCCAA (www.cccaasports.org *{hyperlink opens in another tab/window}*) and the college’s website. *{replace ‘the college’s website’ with ‘the <CollegeName> website (<URL/hyperlink>’ if feasible}*
Intramural and **club** sports allow students to participate at a less rigorous level than the intercollegiate teams and/or to play a sport for which the college does not field an intercollegiate team. In **intramural** sports, several teams from the college play each other in college-sponsored competitions. In **club** sports, the clubs are sanctioned by the college but make or find their own opportunities for competition.
- Field Error Check:** None

Request for Consent

Consent to Release Information

Question Text: The community colleges you attend and the Chancellor’s Office of the California Community Colleges request your help. We ask that you agree to allow us to release necessary personal information about you to various agencies and organizations so we can do research, plan programs and offer special services to you (such as transfer opportunity information or state financial aid). If you do agree to give your consent, your information will not be sold, used for commercial purposes, released to the public, or given to other government agencies for purposes of determining benefits (other than financial aid), except where specifically required by law. In addition, if you do consent to release of your information, those organizations and agencies to which your information is given are prohibited by law from using it for any unauthorized purpose or releasing it to anyone else. If you do not give your consent, personal information about you will not be shared with other organizations or agencies except where allowed by law. You should also know that, answering “no” to this question will not prevent release of certain “directory information” about you. To learn more about directory information or how to block its release, see the [Privacy Policy](#).

I authorize the Chancellor’s Office, California Community Colleges, and the community colleges I am attending to release necessary personal information contained in my education records, including my Social Security number, for the purposes described in the [Full Statement of Consent](#):
