

What are the TTAC goals for 2020/2021 and how do these goals further the Vision for Success?

Technology can provide a platform to deliver equitable solutions to help students achieve completions like degrees, certificates, and transfers.

The following goals were established by TTAC in alignment with the Vision for Success.

1. Investigate viability and make recommendations on a system-wide ERP offering. Aligned with:
 - a. Goals 5 (equity) and 6 (reducing achievement gaps) and,
 - b. Commitments 4 (data), 6 (action and innovation) and 7 (partnership)

2. Investigate and provide recommendations on a single sign-on, SAS solution for students, faculty, and administration for the CCC System.
 - a. Commitment 2 (design with students in mind)

3. Act on the IT Survey that was done last year to determine CCC System needs.
 - a. Commitment 1 (Focus on student's goals)

4. Support system solutions to assist colleges in meeting the Board of Governor. Accessibility standards, especially for technology applications.
 - a. Goal 5 (equity) and Commitment 2 (design with students in mind)

5. Advise the Chancellor's Office in the development of data governance standards, processes, and implementation.
 - a. Commitments 4 (use of data), and 7 (partnership)

6. Support districts in meeting the system's cybersecurity standards and in upgrading local practices to meet needs identified in the system's cybersecurity survey.
 - a. Commitments 4 (use of data), 5 (goals and performance), and 6 (innovation)

7. Advise the Chancellor's Office in the implementation of the governor's longitudinal educational data and information system.
 - a. Commitments 4 (use of data), 5 (goals and performance), and 6 (innovation)

8. Provide advice and input from the field regarding technology-related system-level projects such as the California Virtual Courses (CVC) and CCCApply, especially related to AB 705 implementation.
 - a. Commitments 4 (use of data), 5 (goals and performance), and 6 (innovation)

What are the TTAC goals for 2020/2021 and how do these goals further the Vision for Success?

9. Support and assist the Chancellor's Office efforts to modernize technology applications like CCCApply and the Chancellor's Office Curriculum Inventory (COCI).

- a. Commitments 4 (use of data), 5 (goals and performance), and 6 (innovation)
