Count	Response
1	- All applicants come in with INC for their residency because they indicate they have lived in CA for 2 years, but paid taxes & voted outside CA are true. - All applicants say they did not graduate high school and were not home schooled. - Emails addresses are similar to each other and are uncommon email providers. - All applicants have been male - Most applicants have an address in the LA area
1	1 mailing address/perm address is identical 2 prim ph # 555-xxxx OR prim ph area code mismatch from perm state
1	1. In a group of 237 Received March 2017, 1st name either Reddit or RedditEUC, last name either .EDU or alphabet ex: wuxsahdrsasxzb Address start with Test ... Majority of the B-Day01/01/1993 2. We receive invalid state codes. Often PW & MH 3 .22 total records have michelleb.saundersa@mail.ru 44 total records have yolanda.kendrick@mail.ru 43 total records have henry.bockman@mail.ru All have a FIRST_NAME with a space and Initial with a period: example: Greg G except for henry.bockman@mail.ru. (14 do not) All applied to ARC All applied to TERM 1173 All selected major 191001 All have the same birthday: 6/01/1985 11 submitted apps on 2/19/2017 11 submitted apps on 3/5/2017 4. 115 apps have the email address ofpremort1@gmail.com and have address 100 LARKIN ST REET , SAN FRANCISCO which is the public library
1	1. Names of the applicants vs the email address. 2. A lot of out of state applicants 3. used the same dob

## Count Response

1	All have an email address of yopmail.com
1	Email addresses do not match names. Emails are from YOP and other strange sources. Addresses incomplete or non existent. City, State, Zip in addresses do not match. Birth dates often 1/1 '97 '98' or '99. Programs of study often Ag related because these appear first in drop down menu. No SSN. No middle name. Nonsensical names like Fred Derf Dref.
1	Email from @mail.ru, @outlook.my or similar like: robertkinn9+uaA4@gmail.com Same birthday: June 1, 1985, Jan. 6, 1995 Sex: N Not real address
1	From known temporary e-mail addresses. Or using gmail.com addresses with multiple periods in the name. This week starting to receive email addresses with 'Hotmail.com' The applicant name has no match with the e-mail address. The address are not complete (just a number with no street).
1	I forgot to mention in my last survey 3 IP addresses; 10.20.26.41 10.20.26.126 172.29.0.96
1	Invalid addresses outside of California. More recently many are starting to use non-residential in-state addresses, such as 6101 W Century Blvd, Los Angeles, CA 90045 which is the address for the Sheraton Hotel. It appears these applications are coming from China based on the names.
1	It is usually with the same email or address. I had been keeping copies of those I received but my computer crashed and they were wiped out.
1	Mailing address and phone numbers which are the College's. Obviously made-up names and addresses.
1	Many have California City and California City High as city and HS. We've also seen many ronentags as part if the email.
1	Many of them so obvious it's laughable. Almost all of these bogus apps have out of the area address and some have nearby cities like Los Angeles and Modesto. Using emails like jhfdkldf@gmail.com
1	Most of the emails are coming from a foreign email provider.
1	N/A

## Count Response

1	Off the top of my heard we've only encountered one that seemed weird recently. It was two students with the same first and last name, but with different middle names. Same date of birth. I'm not sure if it was determined to be twins or one of these fraudulent applications.
1	Our questionable applications share the same name, SSN, DOB, similar emails with a variation of one character or number, or the student will not include a phone number.
1	Out-of-state address; yopmail email address; originate from same IP address; usually submitted in groups (more than one suspicious app submitted on any given day).
1	Similar characteristics for email addresses (first name initial and last name) and the same birthdate. Recently we have received some without addresses and SS#.
1	State name spelled out in City field. (Michigan, MI; Colorado, CO). Suffix is Sr.
1	The first obvious characteristic was that each applicant had the same birth date (in this case, 06/01/1985) and a Russian email address ending in @mail.ru. There was also a pattern to the email addresses of firstname.lastname@mail.ru, and sometimes firstname.lastname with 1, 2, 12, 21, etc. before @mail.ru. Further investigation determined that the zip codes didn't match the city and state combinations in each address.
1	The most recent "BAD" applications began the first of May. We Googled the addresses which are Businesses; US Post Offices, in California and other states; shopping centers addresses; Wells Fargo, CVSs; Walgreens; etc. They are using Yahoo.com email accounts, Email accounts does not match with any of the names on the appls. Most are Non-res status #3, Not Arrived-T rue, Ca Res-2 Years-False. The Zip Code may not be for the city. Using all the states but mostly back east-New York business addresses. So much fake information on the applications. The name used some sound made-up and the race is always W-White.
1	We have just received 3 (all on 6-6-17). They all came from the same ip address and they all had email addresses that began with "dumb"..... They were all out of state and they had no education level information.
1	disposable emails, emails that don't look like student emails, NO MIDDLE NAME, wrong zip codes, major is the first in our list (Ag), parent educ unkwn, home schooled,
1	email address domains: yopmail, teleworm, gustr, einrot, cuvox, armyspy, jourrapide, supperito, rhyta, fleckens, dayrep or email addresses like xxstudent45xx all have same birthdate, sequential SSNs, sequential phone numbers, invalid addresses, NO address

**Count    Response**

1	mail.ru email domain yopmail.com email domain Only numbers for names Numbers in names repeated birth date of 06/01/1985
1	the one I saw had an email address with "motherfuekcr" in it, or a similar badly spelled expletive.
1	they were sporadic until May 2017 then many applied until May21. I think the captcha helped. We saw no social, incorrect zip code, emails do not look like student emails, many with unk residency, no parent info, home schooled, major selected (Ag) was 1st in the list.
